

Choose Model Class

```
graph TD; A[Choose Model Class] --> B[Select Model Order]; B --> C[Estimate Parameters]; C --> D[Validate Model]; D --> E([Use Model]); D --> B;
```

The flowchart illustrates a five-step process for model selection. It begins with 'Choose Model Class', followed by 'Select Model Order', 'Estimate Parameters', and 'Validate Model'. A feedback loop connects 'Validate Model' back to 'Select Model Order'. The process concludes with 'Use Model'.

Select Model Order

Estimate Parameters

Validate Model

Use Model
